-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1.The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4, 8, 10 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Karszes for reasons of record as set forth in paragraph 1 of the previous action.

2.The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9, 11 and 13-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Karszes for reasons of record as set forth in paragraph 2 of the previous action.

3.Claims 2, 3 and 5-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Karszes in view of Fitzpatrick for reasons of record as set forth in paragraph 3 of the previous action.

4.Applicant's arguments filed August 24, 2006 have been fully considered but they are not persuasive. Applicant submits that Karszes does not disclose bringing a first film proximate a molten second film, patterning the second film and solidifying the second film. However, the latter two steps are clearly taught in Karszes and it is

Art Unit: 1732

respectfully submitted that the coextrusion disclosed therein at least "reads on" providing a first film. It just so happens that the films are extruded at the same time. However, such coextrusion is apparently either set forth—or certainly not excluded-- in instant claim 10. It is further submitted that the very language of instant claim 1 does not preclude employing a molten extrudate as a film. See the language in instant claim 1, line 3, wherein the second film is specified to be in a molten state. If the second film can be in a molten state, why cannot the first film also be in such a state?

5.THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6.Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mathieu D. Vargot whose telephone number is 571 272-1211. The examiner can normally be reached on Mon-Fri from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Johnson, can be reached on 571 272-1176. The fax phone
